

Baylor TIP

TALENT IDENTIFICATION PROGRAM

I took the Baylor TIP assessment. Now what?

First of all, when you review your assessment, remember that this is an **ABOVE LEVEL** assessment. The concepts included are typically taught three to five years higher than your current grade level.

AKA: Don't stress about the number of questions you missed!

- ✔ You will receive a score report within 24 hours of your assessment. Access your report in your Knowsys portal (go.myknowsystest.com) using your assigned username and password.
- ✔ You will receive a decision regarding Baylor TIP admissions within six weeks of your assessment date.
- ✔ Opportunities within Baylor TIP are dependent upon performance. However, some programs, like Super Saturdays, are available to any student who has tested.
- ✔ Students may test once per school year.
- ✔ Once a student qualifies for specific programs, they can participate through their high school graduation. However, in order to qualify for the **Seventh Grade Talent Search**, students MUST test within their seventh grade school year.
- ✔ Comparative performance data will be available after the 2023-2024 assessment cycle.
